 - **Backend:** Node.js, Express.js
 - **Databases:** PostgreSQL, MongoDB, Redis, MySQL, SQLite
 - **DevOps:** Docker, Kubernetes, CI/CD, GitHub Actions, Jenkins
 - **Tools:** Git, Linux, VS Code, Vim, Postman, Docker Compose
 - **Testing:** Jest, Vitest, Playwright, Unit Testing, Integration Testing
-

Professional Experience

Staff Software Engineer, Tech Lead, Gap Inc.; Columbus, Ohio | 2024 – present

- Developed innovative tools for building a comprehensive component library with 100+ core components and 200+ sub-components, hooks, and utilities, enhancing team productivity across the organization.
- Led agile software teams of 4-10 engineers to consistently achieve 95-100% sprint goal completion rates, fostering collaboration and accountability.
- Maintained the code base and modernized build pipelines by migrating from standalone repository to monorepo architecture, improving developer experience and code sharing.
- Provided mentorship and education on best practices through 2+ mob and pair programming sessions monthly.

Senior Software Engineer, NetJets; Columbus, Ohio | 2023 – 2024

- Built a company-wide platform for tracking user data and flight arrangements, serving 12+ development teams across the organization and serving as an integral part of the development ecosystem.
- Collaborated with 4+ cross-functional teams to migrate legacy .NET application to modern NextJS architecture, significantly improving system performance and maintainability.
- Provided mentorship to 4 junior engineers and additional team members, fostering a culture of growth and knowledge sharing.

- Developed efficient and innovative solutions for private aviation services, streamlining operations and improving service delivery.

Senior Software Engineer, WillowTree; Columbus, Ohio | 2019 – 2023

- Collaborated with cross-functional teams to develop enterprise-level software for industry leaders including NBA, Wyndham Hotels, Ohio Liquor Agency, Blue Cross Insurance, and Mizuho Financial Group.
- Employed agile methodologies to ensure timely delivery of projects to clients.
- Leveraged cutting-edge technology to meet diverse client needs effectively.

National Basketball Association

- Led 3-person internal development team and implemented testing strategy achieving 90% code coverage.
- Identified and fixed critical bugs before launch, including a major router bug affecting user experience that was resolved the night before a major deployment.
- Built tooling to mock API endpoints for simplified testing.

Wyndham Hotels

- Built infrastructure for booking accommodations across Wyndham's entire hotel portfolio.
- Assisted in building new checkout system.
- Unified existing applications into cohesive platform.

Ohio Liquor Agency

- Assisted in building a brand new platform.
- Assisted in bug and testing processes.

Blue Cross Insurance

- Led 3-person development team that assisted in building a new platform serving 10,000+ users.
- Mentored newer developers on team best practices.
- Organized code reviews to maintain high code quality standards.
- Implemented comprehensive testing strategy.

Mizuho Financial Group

- Built automation tooling that reduced content migration time from days to hours, processing hundreds of pages.

Lead Instructor / Agile Coach, We Can Code IT; Columbus, Ohio | 2017 – 2019

- Led 12 cohorts of approximately 20 students each (240+ total students) through accelerated programs in JavaScript and Java, emphasizing Test Driven Development.
- Achieved 90% job placement rate within one year across all cohorts, successfully launching students into software development careers.
- Developed and prepared curriculum, exercises, and projects to enhance student learning and real-world readiness.
- Guided students in live-coding sessions, simplifying complex web application concepts.
- Successfully led a team to create an application deployed for a local food pantry that remained in active use for 2+ years, showcasing practical skills and community impact.

Digital Creative Specialist, A & R Creative Group; Columbus, Ohio | 2014 – 2017

- Collaborated with a diverse team to complete projects and develop brands, ensuring quality work delivered on time.
 - Delegated projects and oversaw progress, enhancing team efficiency and project management.
 - Designed, developed, and maintained websites for all companies under the A&R umbrella, handling updates and content generation.
 - Utilized photography and graphic design skills to create advertisements and print materials, contributing to brand visibility.
-

Education

Bachelor's of Fine Arts | Photography The Ohio State University | 2011
